Comfortable DECT headset for maximum freedom

The wireless Snom A170C headset offers mobility of up to 25 m with high audio quality thanks to DECT technology. The lightweight headset has a wideband speaker and microphone with passive noise cancellation for filtering background noise. The headset offers three wearing options: headband, neckband or directly on the ear and features integrated EHS functionality. At the

touch of a button, the most important functions such as call acceptance, microphone muting or volume can be controlled directly on the headset. The dual connectivity feature allows the A170C to be connected to both, Snom desk phones and your PC and to switch between them easily.
